**“Living a Creative Life” by Artist Thom Ricks
Creative Inventor of “I” Magnetrometer**

Things to ponder from Thom’s Talk

Question #1 What are you attracting in your life?

Question #2 What are you broadcasting out? conscious or unconscious? _____

**Question #3 Do you start each day with Faith in
“I live in a prosperous, abundant universe, with loving supportive
friends and family, wonderful things are happening in my life?**

**Or Faith in not enough” money, doubt in your talents, fear of
shortfalls, lack, shortage, scarcity, worrisome thoughts?**

**“Living a Creative life” is about drawing to you, whatever you think
about, talk about, believe strongly about, feel intensely about and
dream about?**
